## ELECTRIC HYDRAULIC CONTROL SYSTEM

M.W. Watermark filter presses are equipped with the Electric Hydraulic Control System (EHCS) when electric hydraulics are included with a filter press, providing control of the closure system. The EHCS features a touch screen control interface, an emergency stop pushbutton, and a disconnect switch in a NEMA 4 enclosure. Optional control of automatic drip trays and control of an air-operated diaphragm feed pump are available. Standard power input is 480VAC / 3Φ / 60Hz. Other voltages are available.

### Features:

- Optional on New Filter Presses
- Retro-Fit to any Filter Press with Electric Hydraulics
- Color Touch Screen PLC Control
- Disconnect Switch and Power Light
- Emergency Stop Pushbutton
- 24" x 24" x 8" NEMA 4 Enclosure
- 480VAC / 3Φ / 60 Hz (std.)
- Other voltages available
