

OPTIONAL TWO-HAND HYDRAULIC SAFETY INTERLOCK

The M.W. Watermark™ optional two-hand hydraulic safety interlock minimizes accidents by requiring two buttons to be depressed for movement of the follower. This press neither opens nor closes / clamps without both buttons being simultaneously pushed. The buttons are recessed to help prevent operator override.

M.W. Watermark 630mm Filter Press with Optional Two-Hand Hydraulic Safety Interlock

The Safety Buttons on Each Side Are Recessed to Help Prevent Operator Override
